ANNOUNCEMENT

Skill Development programme on “Terracotta Processing” at CSIR-CGCRI Khurja Centre, Uttar Pradesh (August, 8-13, 2022)

About the Program

CSIR-CGCRI is organizing a skill development programme as a part of **CSIR Integrated Skill Initiative** under “**Skill India**” mission of Government of India for the artisans and the students. The aim of the programme is to impart the hands-on training to the people to improve their skill in their area. The curriculum of the program is designed to augment the understanding of participants on technical aspects of various steps of terracotta processing along with hands-on training.

CSIR-CGCRI has vast and strong expertise in the field of glass & ceramics, materials characterization and well equipped with various state-of-the-art instruments for characterization of glass and ceramic raw materials and products. **CSIR-CGCRI-Khurja Centre**, is functioning to cater to the needs of developing creaming and allied industries, particularly to the Ceramic Industries in the Small Scale and Rural Sector. This Centre of CGCRI has contributed to a great extent in the modernization and All-round Development of Ceramic Industries in Khurja on energy efficiency & Cluster Development. The Centre is actively involved in Research & Development in traditional ceramics, testing, and training activities for the growth of ceramic industries and rural artisans since its inception.

Under the CSIR Integrated Skill Initiative programme, CSIR-CGCRI is pleased to announce a five days skill development programme entitled “**Terracotta Processing**” at CSIR-CGCRI Khurja Centre, Uttar Pradesh.

Objective

The main objective of this skill development program is to provide skill development training on terracotta processing through discussion and demonstrations. Various aspects of terracotta processing such as raw material processing, slip casting, jigger-jolley, glaze application etc. will be discussed and demonstrated in this programme.
