About the Speaker: Dr. Shekhar C. Mande is among the country's leading structural biologists and an alumnus of the

Molecular Biophysics Unit of IISc, Bangalore. Beginning his career at CSIR-IMTECH, Chandigarh, he served the Centre for DNA Fingerprinting & Diagnostics as senior staff scientist before taking over as Director of National Centre for Cell Science, Pune. Subsequently he became the Director General of CSIR

and Secretary DSIR in 2018. After completing his tenure at CSIR, presently he is the Distinguished Professor at the Bioinformatics Centre, Savitribai Phule Pune University, Pune.

He is a structural biologist and X-ray crystallographer and has worked extensively on the structural characterization of Mycobacterium tuberculosis proteins and the computational analysis of genome-wide protein interactions. Dr Mande is a recipient of the Shanti Swarup Bhatnagar Prize in Biological Sciences in 2005, along with numerous other prestigious awards. He is fellow of all the national science academies of India.
