

Mag-Chrome Refractory Aggregates from Friable Chrome Ore

IPR STATUS

Patented

APPLICATION/USES

Refractory for steel ladle, copper smelter, cement rotary kiln

SALIENT FEATURES

- High corrosion resistance
- High RUL

LEVEL/SCALE OF DEVELOPMENT

Commercialized

LINE MINISTRY MAPPING/USER SECTOR

Ministry of Steel / Steel Industry, cement industry / Refractory industry/ Copper Industry

Sintered Mag-chrome aggregates produced at a refractory plant
